The Purity of "Bull" Durham Is Proven Absolutely by Government Statistics!

Herewith we print a facsimile of a letter from Hon. W. H. Osborn, Commissioner of Internal Revenue, written in the routine of his official duty in answer to a letter from the manufacturer.

The Government officials find in the "Bull" Durham factory nothing but the bright, golden leaves of Carolina and Virginia tobaccos—the tobaccos that have made American cigarettes the most popular smokes in the world.

In Durham—and indeed, throughout practically all of North Carolina and the adjoining counties of Virginia—nearly every man is interested in tobacco, the great staple crop of the community. In the towns where the tobacco warehouses are located; on the farms, in the banks, in the stores—everywhere—these men who grow the tobacco, who take it to market, who buy it and sell it, and are made prosperous by the business of handling the money received from the crop—everywhere, these men know that the sweetest, mellowest, choicest leaf is bought for
